

Aufgabe 1:

The screenshot shows a Java Swing window titled "Delegate-Methodenaufrufe". The window contains a grid of buttons for different delegate call methods: "Aufruf ohne Delegate", "Klassischer Aufruf mit Delegate", "Vereinfachter Aufruf", "Anonyme Methoden", "Lambda Expressions" (highlighted with a blue border), and "Beenden". Below these buttons is a calculator interface with three sections: "Operanden" (Operands) with input fields for "3,5" and "4"; "Operation" (Operation) with radio buttons for "Addieren" (selected) and "Multiplizieren"; and "Ergebnis" (Result) with an output field showing "7,5".

Operanden	Operation	Ergebnis
3,5	<input checked="" type="radio"/> Addieren	7,5
4	<input type="radio"/> Multiplizieren
